

SENIOR MOBILE
DENTAL SERVICES

Senior Mobile Dental Services:

Convenient and Comprehensive Dental Care for Your Loved Ones

At Senior Mobile Dental Services, we are committed to providing high-quality dental care directly at your loved one's facility. Our mission is to make dental care accessible, stress-free, and delivered with professionalism and compassion—without requiring anyone to travel to a dental office.

What Sets Senior Mobile Dental Services Apart:

Comprehensive Dental Care On-Site

We offer a full range of dental services at the facility, eliminating the need for your loved one to leave their comfortable environment. From preventive care to advanced treatments, we provide everything needed for complete oral health.

Dentist-Led Treatments

Our team includes highly qualified dentists who perform all the treatments typically provided in a dental office, including:

Simple and surgical fillings

Tooth extractions (both simple and complex)

Portable X-Ray Technology

Utilizing advanced portable X-ray machines, we can take high-quality dental X-rays right at the facility. In emergency situations, we can perform instant X-rays and begin treatment without delay.

Emergency Dental Services

Our team is equipped to handle urgent dental situations, offering immediate diagnosis and treatment for prompt relief.

Optional Cleaning by a Dentist

You can request professional dental cleanings performed by a dentist, at no additional charge.

Personal Support Worker (PSW) Assistance

To ensure a smooth and stress-free experience, our dedicated PSW will:

Escort the patient from their room to the treatment space and back

Provide ongoing support throughout the appointment, ensuring comfort and care when family members are unable to be present

How to Get Started:

We are pleased to offer a free screening at St. Joseph's on May 28, 2025, with no cost to you. To enroll your loved one, please complete the attached "Request for Dental Care" form and email it to info@seniormobiledentalservices.ca or fax it to **613-907-3060**.

The screening will involve a quick assessment by our team to evaluate cooperation, the number of natural teeth, and the function of dentures. Based on our findings, we will follow up with a potential treatment plan and contact you by phone or mail to schedule the next visit.

We accept all insurance plans, including the Canadian Dental Care Plan, and we handle direct billing, so you only pay the difference.

Thank you for trusting Senior Mobile Dental Services. We are here to ensure your loved one's oral health is managed with the utmost care and expertise.
